Benchmarking report on the number of complaints and the time taken to dispose of complaints

Report was completed. Thirty-four of thirty-five professional regulatory bodies currently operating in Ontario responded to our request for information.

- Of all professional regulatory bodies in Ontario, HRP A has the lowest number of complaints per 1000 members by some margin. The number of complaints per 100 members for HRP A in 2014-2015 was .23. The next closest professional regulatory body, the Association of Professional Geoscientists of Ontario, had .50, which is more than twice as many as HRP A.
- The professional regulatory body with the most complaints per 1000 members in 2015 was the College of Physicians and Surgeons of Ontario with 89.29 complaints per 1000 members.
- The median number of complaints per 1000 was the same for professions that do not have a separate member association (3.59 per 1000) as it was for all non-health professions (3.59 per 1000).
- With 24,000 registrants, a rate of 3.59 per 1000 converts to 94 complaints per year.
- In regards to the length of time it takes to resolve complaints, HRP A appears to be right in line with other professional regulatory bodies in Ontario.

Complaints and discipline (including capacity and review)

Complaints Committee

Three complaints were filed in Q3. A summary of the allegations is given below. None of these complaints have been disposed of yet.

Case	Date complaint filed	Nature of allegations
C-2016-3	June 10, 2016	It is alleged that the member failed to conduct themselves with integrity while performing a third-party workplace harassment investigation and failed to interview witnesses deemed relevant to the complainant. The member is also accused of colluding with the complainant's employer against the complainant.
C-2016-4	June 17, 2016	The member is accused of operating in a bad-faith capacity by colluding with an investment firm.
C-2016-5	June 27, 2016	The member is accused of being verbally abusive during a meeting with the complainant. The member is also accused of not providing assistance to the complainant when he made complaints of a stressful work environment, and she did not show concern or proper guidance for his issues.

The Complaints Committee disposed of three complaints in Q3.

Case	Date complaint filed	Nature of allegations	Date of disposition of complaint and decision of Complaints Committee
C-2014-1	September 16, 2014	It has been alleged that the member created at least 26 false or misleading invoices totaling at least \$178,000 from two Human Resource recruiting firms over a period of about two years.	June 16, 2016 Referral to Discipline Committee (see below)
C-2016-1	March 16, 2016	Complainant alleged that the member breached the complainant's confidentiality and exhibited unprofessional behaviour by discussing a matter in public that could result in negative actions towards the complainant.	June 9, 2016 Dismissed without further action
C-2016-2	March 17, 2016	Complainant alleged that the member: a. Did not complete a workplace harassment investigation in a timely manner, b. Lied on the investigation report, c. Intentionally omitting information on the investigation report, d. Did not respond to the complainant's email in an attempt to harass and intimidate the complainant.	July 13, 2016 Dismissed without further action

Discipline Committee

There was one referral made to the Discipline Committee on June 16, 2016. It has been alleged that the member created at least 26 false or misleading invoices totaling at least \$178,000 from two Human Resource recruiting firms over a period of about two years. This individual is no longer a member of the Association but was a member at the time the alleged misconduct occurred. HRPAs has continuing jurisdiction over the individual.

- The referral to discipline took 639 days, which is considerably beyond the 150-day target for disposing of complaints. In addition to the complexity of this complaint, the delay was contributed to a variety of factors:
 - Numerous extension requests made by the respondent's legal counsel, which contributed to a delay of five months
 - A formal investigation was conducted over the course of six months
 - Numerous consultations by the Complaints Committee with independent legal counsel (ILC)
- A Notice of Hearing was served on the individual by HRPAs's regulatory counsel on behalf of HRPAs.

- The member has yet to respond to the Notice of Hearing. Legal counsel for HRPA has followed up with the individual in an attempt to schedule a pre-hearing conference.
- As per the *Statutory Powers Procedure Act, 1990*, if the party notified does not attend at the hearing, the Discipline Committee may proceed in the party's absence and the party will not be entitled to any further notice in the proceeding.

Review Committee

The Act requires that all members and firms notify the Registrar of any bankruptcies and insolvency events. The Act also required that bankruptcies and insolvency events be reviewed by the Review Committee. In March 2016, the Board passed by-laws which supported the implementation of the bankruptcy and insolvency provisions in the Act. Since then:

- Terms of Reference were developed for the Review Committee
- Rules of procedure were developed for the Review Committee
- Volunteers were recruited to the Review Committee
- A training protocol was developed for members of the Review Committee
- A special webinar is in the works for September 19, 2016 (more detail below under *Stakeholder Relations*)

The bankruptcy and insolvency rate in the general population in Ontario in 2014 was 3.8 *per thousand*. The question "Have you or your firm experienced a bankruptcy or filed a consumer proposal within the last year?" was included in the 2016 HRPA Member Survey. The responses to this question suggest a bankruptcy and insolvency rate among HRPA members to be closer to 9.0 *per thousand*.

At HRPA, with 24,000 members, a rate of 9 per thousand would lead us to expect approximately 216 reports of bankruptcies and insolvency events per year.
